PROFILE

Electronics and Telecommunication Engineering undergraduate at Sardar Patel Institute of Technology with a strong interest in software engineering, DSA, web development, and practical engineering. Comfortable with C and Java and currently building skills in DSA, HTML/CSS, databases, and project development.

EDUCATION

Sardar Patel Institute of Technology (SPIT), Mumbai — B.Tech. in Electronics & Telecommunication Engineering | Expected 2029
CGPA: 8.64/10 | **Minor Degree:** Computer Engineering

TECHNICAL SKILLS

- **Languages:** C, Java, SQL
- **DSA:** Basic arrays and strings; familiar with the concepts of HashMap and HashSet
- **Web:** HTML, CSS; learning full-stack development
- **Tools:** Git/GitHub, MySQL, Java development tools
- **Interests:** Software Engineering, Web Applications, AI/ML

PROJECT IDEAS & INNOVATION

- **Construction Materials Marketplace (BilDr)** — Concept for connecting builders with verified suppliers through supplier comparison, certificate verification, bulk ordering, and delivery tracking.
- **AI-Driven Crop Monitoring & Irrigation Advisory** — Hackathon concept exploring optical and SAR satellite data for crop-type classification, moisture-stress detection, and irrigation recommendations.
- **Waiting-Room Web Application** — Concept for a queue-based system to manage traffic during high-demand periods and provide users with time-slot access.

LEARNING & ACTIVITIES

- Practicing beginner-level programming and DSA problems while strengthening problem-solving skills for software engineering interviews.
- Participating in hackathon and innovation activities focused on applying electronics, programming, and problem-solving to real-world challenges.
- Currently learning web development, with HTML and CSS as the foundation for full-stack development.

COURSEWORK

Programming in C, Object-Oriented Programming, Data Structures, DBMS, Digital Electronics, Electronics, Mathematics

CAREER OBJECTIVE

Seeking software engineering/internship opportunities where I can apply programming and problem-solving skills, learn from experienced engineers, and contribute to impactful products.
